Huge Business Enterprises In Japan Breaking

Anti-Monopoly Directives Beginning To Get Results For MacArthur

POWERFUL SILK CONCERNS FOLDING

By JOHN R. HENRY
U. S. Staff Correspondent

TOKYO, Oct. 16.—Japan's huge business enterprises, facing the threat of anti-monopoly directives from Gen. Douglas MacArthur, began to crumble today with three concerns that had held an iron-fisted control over being the first to fail.

The powerful silk concerns started to fold up less than 24 hours after Col. R. C. Kramer, head of MacArthur's economic and scientific section, predicted that Japanese financial moguls were likely to initiate action to dissolve the great Zaibatsu trust.

There were strong indications also that the new government of Premier Baron Kijuro Shidehara is preparing to divorce wealthy Japanese business barons from their banking interests.

Vote Dissolution

The Japan raw silk manufacturing company, the Japan silk controlling company and the Kyoei silk refiners guild voted their own dissolution in compliance with a government directive issued on orders from Gen. MacArthur.

As a result of this action by the three firms that long-dictated the operations of the silk market, large, medium and small factories will be freed of controls and placed on a competitive basis for the launching of silk exports within three months.

The Japan Raw Silk Manufacturing Company, established in 1943 with one hundred million yen capital, decided its future with both directors and stockholders voting in favor of dissolution.

Plans To Meet Situation

Officials of the Japanese finance ministry meanwhile revealed a four-point plan to cope with Zaibatsu. The plan submitted by the finance

Ralph E. Ferree Sr. and R. M. Wilson of R. D. 2, Union township, have just returned from Madoc, Ont., Canada, from a fishing trip, and report fishing very good, with a catch of muskies, small mouth bass, and pickerel. Mr. Wilson plans to return this week to Georgian Bay for the lake trout season.

J. A. Boak, one of the leading orchardists of the county, reports that the apple crop in Lawrence county, is almost a total failure this season. The warm weather in March followed by the cold spell in April spoiled the apples, he says. Under best conditions, the orchards in Lawrence county would produce upwards of 100,000 bushels in a season, he says, so that it can be judged how large the loss is this season.

Suggestion is made to returning G.I.s who are seeking renewal of their auto driving licenses, that if they take the old license card along when making application for renewal, much inconvenience will be avoided.

Eleventh hour mailing of holiday packages to men and women in service created quite a rush at the post office on Monday afternoon. Several lines of mailers were at the windows during the afternoon hours. Monday was the mailing deadline.

Result of the change in bus routes, whereby busses make a stop in front of the post office, several of the parking meters at the western end of the Public Square, in front of the post office, have been decommissioned. They are now marked ten.

Discuss Withdrawal Of Allied Council From Italy

WASHINGTON, Oct. 16.—(INS)—Discussions were underway today on the question of withdrawing the allied control council from Italy.

The talks will be conducted in London and Moscow by United States representatives there.

Informal sources said that the talks had already begun between the United States embassy in London and the British foreign office.

They are due to start momentarily in Moscow with Ambassador W. Averell Harriman, representing the United States.

Truman Interested

Rep. Vito Marcantonio (F-N. Y.), discussed the matter with Pres-

ident Truman yesterday and learned that the question was already being taken up through diplomatic channels.

The United States was said to welcome such a move since it would permit the withdrawal of American troops from the area.

Officials said that the removal of American troops would improve the political situation inside Italy.

However, discontinuance of the allied control council would reportedly be tied in with modification of the original Italian armistice terms. It is also likely to be related to the formulation of an Italian peace treaty.

Russia May Be Demonstration Seeking To Break Parley Deadlock

WASHINGTON, Oct. 16.—(INS)—Diplomatic quarters in Washington raised the possibility today that Russia may be seeking to break the deadlock of the five-power foreign ministers' council in London and to revive the discussions.

Informal diplomatic sources said that this interpretation might be placed on the return to the American capital of Soviet Ambassador Andrei Gromyko.

Gromyko last left the United States to return to Moscow shortly before the Potsdam conference. Later he was named the deputy of Soviet Foreign Minister V. Molotov at the London foreign ministers' council. In his absence Minister Counselor Nikolai V. Novikov has acted as charge d'affaires in Washington.

Reason Behind Return

The real reason behind Gromyko's return was said to be the fact that he is due to be replaced as ambassador by an as yet unannounced

Auto Crashes Bridge Abutment On Mercer-Blacktown Road South Of Mercer

(Special To The News)
Mrs. Mabel Elizabeth Dunkerley, aged 25 years, of Mercer, R. D. 6, was almost instantly killed on the Mercer-Blacktown road, one mile south of Mercer, Monday afternoon about 4:20 o'clock, when the car she was driving hit a bridge abutment with severe force.

She was the wife of Joseph O. Dunkerley, who is now serving on the U. S. S. Makin Island in the Pacific area.

Mrs. Dunkerley, daughter of Carl A. and Sarah Anna Magee Williams, was born in Pine township, Mercer county, April 23, 1920. She had resided most of her lifetime in the Grove City community.

The deceased was a member of the Balm Methodist church, Blacktown, also belonging to the True Blue Sunday school class of that church.

Survivors in addition to her husband and parents include two sisters, Mrs. O. C. Pierce and Mrs. (Continued on Page Two)

New York Police Seek To Squelch Trouble On Docks

Order Out 400 More Patrolmen And Mounted Police To Patrol Dock Areas

NEW YORK, Oct. 16.—(INS)—A heavy concentration of foot and mounted police squelched an incipient flareup of violence along the Chelsea dock area today as rebel strikers tried to prevent longshoremen from going to work.

The longshoremen, under police guard, rushed across the street to work on pier 59, amid a screaming chorus of boos and jeers from rebels imported from Brooklyn.

The incident first of a threatened series of explosions of violence came as a demand was made on Mayor F. L. LaGuardia to order Harry Bridges west coast CIO dock chief to "get out of town."

The demand was made by the executive board of the Central Trades and Labor Council, AFL.

TOKYO, Oct. 16.—Five thousand persons staged Tokyo's first hunger demonstration today by parading through the streets to Hibiya Park carrying banners proclaiming "save us from starvation."

After they had formed the new Japan working mass political party at a mass meeting in the park, about one thousand of the demonstrators marched to the official residence of Premier Baron Kijuro Shidehara.

Another large group of hunger demonstrators marched to Gen. Douglas MacArthur's Tokyo headquarters where they shouted "Ban Gen MacArthur" and cheered every American officer entering or leaving the building.

Spoken for the crowd stepped forward and presented a petition for food to the supreme allied commander's staff officers.

They stood in front of the premier's guarded residence clamping for food and waving their banners. But no violence developed and the crowd dispersed without having received official recognition from Shidehara.

The new party's platform included demands for abolition of private council ministers and bureaucrats and the resignation of all royal persons except Emperor Hirohito.

Three To Die For Mass Murders

WIESBADEN, Germany, Oct. 16.—(INS)—An American military commission prepared today to carry out death sentences imposed upon three men condemned for the mass murder of Hadamar insane asylum inmates.

The four other defendants—one of them a woman—were given long prison terms, including life at hard labor for Dr. Adolf Wehlman, chief asylum physician, who contended the killings were necessary because of the patients' supposed incurable condition.

Death by hanging was decreed for Alfons Klein, administrator of the murder mill, and for Heinrich Ruff and Karl Wille, male nurses who admitted killing victims with poison tablets and injections.

In the first atrocity trial held in the U. S. occupation zone, Nurse Irma Huber was sentenced to 25 years at hard labor; Philip Blum, grave-digger, who complained of overwork, 25 years at hard labor; and Adolf Merkle, asylum office manager, 35 years at hard labor.

Government Not To Take Over Coal Mines Is Belief

Secretary Ickes Does Not Think It Advisable For Nation To Take Over Mines Again

WASHINGTON, Oct. 16.—(INS)—Secretary of Interior Harold L. Ickes said after a conference with President Truman today that the coal situation in the nation was "very bad."

"It will be quite serious in some sections of the country if the miners continue to stay out next week," Ickes added.

He said the production of coal has already been cut by half and that he has a theory of his own which he communicated to the President on how the coal strike situation should be handled. He did not disclose the theory but said that he "does not think it advisable for the government to take over the mines again."

Ickes also submitted the new Anglo-American oil agreement to the President and said it is "a very good agreement" and will be submitted to Congress very soon.

Gen. Eisenhower Makes Report On German Situation

Says Berlin's Major Postwar Political Parties Are Operating Under Soviet Domination

DARK PICTURE OF GERMAN ECONOMY

By JOSEPH A. BORS
U. S. Staff Correspondent

WASHINGTON, Oct. 16.—Gen. Dwight D. Eisenhower reported today that Berlin's major postwar political parties are operating under the domination of Soviet occupation authorities who apparently are favoring the communist organization.

In his second monthly report as military governor, Eisenhower disclosed that Soviet authorities have permitted the communist newspaper to print 200,000 copies while holding other party newspapers to 100,000 copies each. All papers are subject to Soviet censorship.

The four principal parties mentioned by Eisenhower are the Communist party, Social Democratic party, Christian-Democratic Union, and the Liberal Democratic party.

Under Soviet Direction
Berlin radio is similarly under Soviet censorship and communist direction and has not to date been generally or freely available to political parties or leaders other than communist.

Eisenhower added that "a proposal has been made for quadripartite control of Berlin radio and other measures are being studied."

The American military government pointed out, however, that while the Communist party holds a majority of the strategic posts in the Berlin magistracy, it evidently does not have a firm grip.

Informal reports indicate that a fair and impartially supervised

After the disclosure of Britain's intent, the British press came out today with supporting editorials.

The newspapers emphasized the importance of restoring order and the regaining of Dutch control.

Japanese Are Demobilized Says M'Arthur

Seven Million Armed Men Have Laid Down Arms In Japan, He Reports

UNIFIED DEFENSE FOR U. S. IS URGED

TOKYO, Oct. 16.—(INS)—Considerable speculation developed today as to whether Gen. Douglas MacArthur is nurturing the hope of fathering a completely new system of defense for the United States.

The Supreme Allied Commander, broadcasting to America yesterday from his headquarters in Tokyo, stressed that the great lesson for the future is that success in the art of war depends upon a complete integration of the services.

He voiced strong arguments for a unified department of national defense, but his speech contained no indication that he has any personal ambitions to reorganize all United States armed services under one command.

"In unity" will be military strength, MacArthur declared in his broadcast over four networks. "We can not win with only backs and ends, and we live, however strong, can go along. Victory will rest with the team."

Demobilization Complete

The October 16 deadline for demobilization of the Japanese home army has been met 100 per cent, MacArthur declared, adding:

"I know of no demobilization in history either in war or peace, by our own or by any other country, that has been accomplished so rapidly and so fruitfully."

Leading Pacific Ace Is Missing

Col. Gerald R. Johnson Missing On Flight From Ito Shima To Tokyo, It Is Announced

IREMAGAWA, Japan, Oct. 16.—(INS)—Headquarters of the U. S. fifth air force announced today that Col. Gerald R. Johnson, 23, the army's leading Pacific ace, has been missing since Oct. 7 when he took off on a flight from Ito Shima to Tokyo.

Major Gen. K. B. Wolfe, acting commander of the fifth air force, revealed that Johnson's B-24 Mitchell vanished after failing to make a scheduled landing at Atsugi airfield because of bad weather.

Co-Flot Missing
Missing with Johnson was Captain James N. Nolano of Houston, Tex., and a search for both the missing aviators was continuing with the cooperation of Japanese police and the civil authorities.

Four other men aboard the plane, reported to safety by near Naha, to miles southwest of Tokyo, after the plane had circled Hsinan for three hours trying to break through the overcast.

Rescued were Lt. Col. Robert Underwood, 28, of Los Angeles; Lt. Herbert A. Schaeffer, 29, of Bronx, N. Y.; Sgt. Patrick V. Childs, 25, of Verrill, Wis.; and Cpl. E. Z. Fountain, 24, of Dallas, Tex. Johnson, whose home is in Eugene, Ore., was credited with 24 kills during the war.

Administration Presses Search For Wage Policy

'Collapse' Of Coal Strike Peace Parley Aggravates Industrial Unrest

NEGOTIATIONS ARE FUTILE SO FAR

(BULLETIN)
WASHINGTON, Oct. 16.—United Mine Workers President John L. Lewis was expected today to summon the union's 200-man policy committee to Washington to plan further strategy in the deadlocked coal strike controversy which has 200,000 miners idle.

At the same time, bituminous operators held their own meeting to explore possible future developments in the dispute following "collapse" of the conciliation conferences directed by Secretary of Labor Lewis R. Schwellenbach.

Some officials feared an immediate nationwide spread of the walkouts which already have closed nearly 1,000 mines and made more than 200,000 miners idle. Steel production has been drastically reduced by the coal strike.

Wages Not Issue

Although wages are not at issue in the coal controversy, the miners represent the largest single group of workers idle in the national total of approximately 400,000 off their jobs. In many other industries, including automobiles, strikes have been threatened in support of labor's general demand for a 30 percent wage increase to maintain the wartime level of earnings.

Secretary of Labor Lewis R. Schwellenbach, who also is taking part in efforts to develop a government policy to answer labor's wage demand, adjourned the coal-strike

Nine Thousand Idle In Canton Due To Strike

CANTON, O., Oct. 16.—(INS)—Four Canton divisions of the Timken Roller Bearing company closed today as 9,000 employees were forced into idleness by a strike of the CIO-United Steelworkers of America.

A company spokesman said operations in the Canton bearing plant and steel mill and in the outlying divisions were halted in face of a picket line established at the gates. Fundamental cause of the strike was the CIO's determination to enforce the eight-hour day, 48-hour week at the plant and a demand for a general 32-a-day wage increase, company officials said.

BUS STRIKE IN BOSTON ENDED

BOSTON, Oct. 16.—(INS)—Employees of the Eastern Massachusetts Street Railway, excepting cable phase of the Linn division, returned to their jobs today to end a three-day strike.

Normal bus schedules were resumed in 68 of the 71 communities served by the line.

More than half a million commuters had been deprived of transportation as a result of the strike.

Disaster Workers Of Red Cross Plan Conference Friday

To Review Preparations For Disaster Service With Eastern Area Consultant

Disaster preparedness will be the keynote of a series of planning conferences by the Lawrence county chapter of the Red Cross Friday, Oct. 19, with Margaret Halligan, field representative of Disaster Service from eastern headquarters, as consultant.

Beginning at 10 o'clock Friday morning, the group conferences will continue at half-hour intervals throughout the day, including the nine different groups of the disaster service, and culminating with a dinner in the chapter house at six o'clock.

Stressing the importance of preparedness for disaster emergencies, J. Glenn Berry, chairman of the local chapter, pointed out that once a catastrophe has struck it is too late to start making plans.

The disaster preparedness committee is as follows: survey committee at 10 o'clock with T. L. Paden as chairman; rescue, 10:30, with Joseph McFate, clothing committee at 11 o'clock with John O. Houston; food committee, 1:30, Mrs. W. L. Cose; shelter at two o'clock, Russell Melvin; medical aid, 2:30, Dr. W. E. Flannery; registration and information, three o'clock, Mrs. Thomas Kelly; transportation, 3:30, with B. N. Hamilton as chairman; central purchase, four o'clock, John E. Elton.

Chairman of the disaster preparedness department is Ralph F. Davis, with Andrew Dodds serving as co-chairman.

"We know there will be post-war problems. But here at Square D company we also know that orders for Square D means jobs for our men. We probably will have wage demands to make although we have not made them yet. You know the cost of living has gone up considerably. It costs me \$15 a week for groceries for my family that used to cost \$7 or \$8 a week. But we'll solve these problems out all right. I'm sure."

Moscow has been inclined to blame the London failure on lack of preparation. It was believed possible that Gromyko will offer to agree on an agenda and the precise points to be discussed at the next meeting. These were believed to center on eastern Europe and the Dardanelles. The eastern European situation was understood to have improved. The United States has agreed to recognize the Soviet sponsored Karl Renner regime for Austria, conditioned on promises of democratic elections and a free press. GEN. EISENHOWER MAKES REPORT ON GERMAN SITUATION

(Continued from Page One)

election in Berlin would not support the Communist party dominance of posts that would reveal relatively strong support going to the Social Democrats and the Christian-Democratic Union, in that order," the report said.

Nazis Being Ousted

The former allied supreme commander further disclosed that the cleansing of Nazis from the public service "nearly its completion" in the period covered by the report, which was dated Sept. 20, 1945.

Eisenhower painted a dark picture of German economy under the cancer of inflation. He suggested a three-point program as a means of combating the post-war menace.

"A. The establishment and maintenance of direct price controls based on the new pattern of industry-wide costs.

"B. The rapid restoration of German production facilities to the levels authorized by the Berlin protocol.

"C. Fiscal and monetary measures that will scale down current incomes and accumulated savings to the realities of the reduced production potential."

Food Situation Critical

Eisenhower added that such a program, to be successful for long, "must be made applicable to Germany as a whole, but pending the completion of quadripartite action, all feasible measures on these lines are being taken in the U. S. zone."

According to the report the food situation in the American zone "remains critical." Eisenhower stated that the maximum permissible ration of 1,550 calories per day for the normal consumer has not been met since the occupation.

The report stated that industrial activity "is at a dangerously low level and is expected to decrease further if raw materials are not available and present stock are depleted."

Intensification of the campaign against black markets was reported by the U. S. military governor.

conference subject to call after eight days of futile negotiations. He said he would try to work out additional compromise proposals and then call the parley back into session.

Offers Rejected

The labor secretary said that five compromise offers had been submitted during the negotiations in an effort to end the deadlock over the unionization of mine foremen under the banner of John L. Lewis' United Mine Workers' union. All of the offers he said were rejected by the numerous coal operators.

Meantime President Truman directed the efforts of the government's wage and price officials to work out the new conversion stabilization program Mr. Truman conferred with members of the War Labor Board and reportedly suggested that the board take over the job of hammering out a new policy on labor's 30-percent demand through a series of test cases.

W. L. B. Objects

WLB members were understood, however, to have objected to this proposal, insisting that the board's prestige had sunk to a low level, that the no-strike pledge no longer exists to support its claims, and that it already is on the path toward liquidation by Jan. 1.

In their meeting with the president, the WLB members advanced some possible procedure outside the board for coping with the current wage-price problem. It was reported that one of these involved setting up of a new commission which would work out a wage-price policy but would not process labor disputes cases.

election in Berlin would not support the Communist party dominance of posts that would reveal relatively strong support going to the Social Democrats and the Christian-Democratic Union, in that order," the report said.

Nazis Being Ousted

The former allied supreme commander further disclosed that the cleansing of Nazis from the public service "nearly its completion" in the period covered by the report, which was dated Sept. 20, 1945.

Eisenhower painted a dark picture of German economy under the cancer of inflation. He suggested a three-point program as a means of combating the post-war menace.

"A. The establishment and maintenance of direct price controls based on the new pattern of industry-wide costs.

"B. The rapid restoration of German production facilities to the levels authorized by the Berlin protocol.

"C. Fiscal and monetary measures that will scale down current incomes and accumulated savings to the realities of the reduced production potential."

Food Situation Critical

LIE DETECTOR TESTS PLANNED

ous, Mrs. Budnik said, and the ex-secretary added she had tried to reconcile the couple.

Body Found Saturday

The body of Mrs. Thompson, nearly decapitated and horribly slashed and stabbed was found on a lonely street near Pontiac Saturday.

Police and detectives are puzzled over why Mrs. Thompson, reputedly wealthy, worked in her own hand laundry, and lived part of the time in an apartment over the laundry and the remainder in the Thompsons' palatial home on Indian Trail road, facing Orchard Lake's waterfront.

Russian born Mrs. Thompson met Thompson, then in the British army, and married him in Istanbul, the Constantinople Turkey in 1922.

Mrs. Budnik admitted that Thompson followed her to Florida on a recent trip that she and Thompson had adjoining rooms and that Mrs. Thompson and a private detective followed and found them in a hotel there.

Mrs. Budnik separated from her husband, Capt. Edmund Budnik, sold police that on two occasions Mrs. Thompson attempted suicide. Thompson admitted that for the past four years he and his wife were estranged.

Hatchet Found

PONTIAC, Mich., Oct. 16.—(INS.) A hatchet found near the scene of the murder of Mrs. Lydia Thompson, a wealthy Highland Park laundry proprietor, was to be sent today to state police headquarters in Lansing.

The dirt-covered hatchet was found on a road not far from Springfield township where Mrs. Thompson was found hacked to death last Saturday.

ministry, expected to be carried out by business big-wigs in advance of a MacArthur directive, included:

1. Elimination of banking operations within Zaibatsu.
2. Change of top-ranking personnel of large industrial concerns.
3. Change of names of banks whose operations were linked with Zaibatsu.
4. Redistribution of the share holdings of Zaibatsu.

Another important monopolistic scorepoint was revealed today when it was learned that the magazine publishing companies control enough paper stocks to prevent efforts to relax publication of liberal magazines banned early in the war.

Through cooperation with the Army during the war the Kogyo, the Shufunomo publishing companies covered the paper stocks, and now are exercising authoritarian economic control of a type which Kramers said the Allies intend to destroy.

QUESTION?

According to all reports, and it seems that these reports are authentic, our American officials seem to be doing quite a job in re-vamping and re-conditioning the war-torn foreign countries, and bringing them back to nearly normal conditions again, or even better than they ever were before.

While this is going on over there, it seems our own home country is getting deeper and deeper in chaos, and in place of re-conversion, and getting better, it seems to be going the other way.

I wonder if we should trade officials, and see if we could get our own country back to pre-war days?

STARK WEAVER WEDDING NEWS

At a quiet ceremony impressively solemnized by the Rev. John W. Neyman, retired minister, in the First Baptist church, Miss Janet R. Stark, twin daughter of Mr. and Mrs. Paul Stark, Falls street, became the bride of Fred C. Weaver on Monday evening, October 15. The bridegroom, honorably discharged from the U. S. service, is the son of Mr. and Mrs. Arthur Weaver of Crescent avenue.

In the presence of the immediate families and a few close friends of the couple, vows were exchanged. The single ring was used.

For her marriage, the bride was attired in an aqua suit with brown accessories, accentuated with a shoulder corsage of yellow roses. Her twin sister, Mrs. David Reynolds, was her only attendant. She chose an emerald green suit with black accessories complemented with a shoulder bouquet of pink roses.

Robert Nail, cousin of the bridegroom, served as best man. Immediately following the couple left on a short wedding trip. Upon their return they will proceed to Rochester, Pa. to take up residence where the bridegroom is associated with the Pennsylvania Railroad. The bride prior to her marriage was affiliated with the local Johnson Bronze company.

MASON-ICKES CHURCH WEDDING

At a candlelight ceremony performed in the Lemington Avenue Presbyterian church, Grotto street, Pittsburgh, on Saturday evening at 8:30 o'clock, Miss Emma Mason, daughter of Mr. and Mrs. Charles Mason, of Point View street, Pittsburgh, became the bride of F. C. 2e James Ickes, son of Mr. and Mrs. James W. Ickes of 1009 Beckford street, this city. Before an altar embankment of palms and ferns, Rev. C. S. Thompson officiated.

The bride's gown of white slipper satin was fashioned with a net yoke embroidered with seed pearls, long sleeves and train-length skirt. Her fingertip length veil fell from a coronet embroidered with seed pearls and she carried an arm bouquet of white roses, chrysanthemums and stephanotis.

Her sister, Ensign Elizabeth Mason, U.S.N.R., who is stationed at the Philadelphia Naval hospital, attended the bride as maid of honor and wore a long-length gown of blue checked velvet and tulle with a matching headpiece. She carried salmon-pink gladiolus.

Louis Mack of New Castle was best man for his cousin, Ushers were Cpl. John McWilliams of Bradock and Pfc. Charles Mason Jr. of Pittsburgh.

The ceremony was followed by a reception at the Penn-Lincoln in Wilkesburg.

The couple left on a honeymoon to the Enclave Caymans. They plan to make their future home in Pittsburgh.

Mrs. Ickes is a graduate of Westinghouse high school and attended the University of Pittsburgh. She is employed as a chemist in the chemical department of Harbison-Walker company.

The couple will return to duty in Pittsburgh at the end of the leave. He is a graduate of New Castle high school. Before entering service he was an apprentice with the Carnegie-Illinois corporation.

CHURCH WEDDING EVENING EVENT

At a candlelight ceremony performed Saturday evening in the Christian and Missionary Alliance church, Miss Dorothy I. McElrath, daughter of Mr. and Mrs. Charles W. McElrath, of the Ellwood road, became the bride of Pfc. Robert M. Kalajainen, son of Mr. and Mrs. Matthew R. Kalajainen of R. D. 1, Rev. William Gamble of Conway, Pa., officiated at the 7:30 o'clock ceremony before an altar banked with palms and ferns in the presence of a gathering of friends who crowded the capacity of the church. He was assisted by Rev. J. H. Boone.

The bride wore a gown fashioned with a full net skirt and lace bodice with long sleeves. Her fingertip veil fell from a wreath of lilies of the valley and she carried white roses. She wore a strand of pearls, a gift from the groom.

She was attended by her sister, Miss Lois Ruth McElrath, who wore a floor-length gown of Alice blue taffeta. Her headpiece was pink roses and she carried an arm bouquet of pink roses.

Richard Kalajainen served his cousin as best man. Ushers were T-4 Eugene Johnston, Glenn Blews, Howard McElrath and William Kalajainen.

Miss Betty McElrath of Pittsburgh, a cousin of the bride, played the wedding music, and Miss Ruth Hess, another cousin, sang "Because" and "Take My Life".

A reception for 100 guests was held at the home of the bride's parents following the ceremony. Mrs. Clarence Thompson of this city, and Miss Billie McElrath of Pittsburgh were aides in serving.

The couple left on a wedding trip to Buffalo and Niagara Falls, N. Y. On October 29 Pfc. Kalajainen will leave to report to Camp Breckinridge, Ky. He recently returned from the European theater of operations where he served with the Eighth Armored division and is now on furlough. SHENANGO CHAPTER WEDDING IN BUTLER HONORS MRS. WEDDELL OF INTEREST HERE

At the regular meeting of Shenango chapter No. 333, Order of Eastern Star, held in the east lodge room of Scottish Rite Cathedral Monday evening, Mrs. Edna Gibson and her corps of officers paid special honor to Mrs. Estelle Weddell, district deputy grand matron of District 2-B, O. E. S.

The occasion was climaxed when presiding officers and matrons formed a beautiful guard of honor when Mrs. Weddell was escorted to the east and presented with an arm bouquet of red roses. Concocted within the petals of each flower were messages of friendship tied with strong threads of thought, felt by the membership, thus marking her last official visit to the chapter. During this ceremony, Mrs. Lillian Buckner sang an original song, dedicated especially to Mrs. Weddell.

Mrs. Edna Gibson presented each of the presiding matrons with a gift.

Special entertainment ensued with Billy Earl, talented pianist and vocalist, delighted with a group of numbers, playing his own accompaniment. A "Minuteman Show" was also given, the most complete of 2. Edna Gibson, district deputy grand matron, and four "end men" who gave a superb performance. Solo parts were taken by Miss Beverly Fox and Mrs. Josephine Hoover.

A social period with the serving of luncheon in the main dining room brought the evening to a close. Mrs. Edna Gibson and her committee were in charge of the refreshments.

Senate Plans Tax Relief For Returning Vets

WASHINGTON, Oct. 16.—(INS.)—The CIO leveled its sights on the five and one-third billion dollar tax reduction bill again today amid signs that the Senate Finance committee planned definite relief for veterans and possible repeal of the excess profits tax.

CIO President Philip Murray's insistence upon greater relief for low-income taxpayers and less for big business was to be laid before the committee in its second day of hearings by Clifford McAvoy, of the CIO-Electrical Workers union.

Revisions Uncertain
Despite evident support for the alternative program presented by Treasury Secretary Vinson, committee members said it was "too early" to know what final revisions they would make in the House bill.

But there appeared to be general backing for adding special relief for the homecoming G. I. Sen. George (D) Ga. committee chairman, and Sens. Vandenberg (R) Mich. and Johnson (D) Cal. openly favored such provisions.

Committee leaders said "something has to be done" at least to provide deferred payments for servicemen who find themselves confronted with tax bills. Under consideration, too, is a proposal to continue the \$1,500 serviceman's income tax exemption for one year following the end of the war.

These proposals and the three-point Vinson program which the House took only in part will come up when the committee goes into closed-door session Thursday to rewrite the legislation. Sen. George said the hearings would end tomorrow and that the bill should be ready for the Senate by the week's end.

SHORTAGE OF NEWSPRINT TO BE CONTINUED

PITTSBURGH, Oct. 16.—(INS.)—A rise in the cost of newspapers to both labor and materials before the first of the year was predicted in Pittsburgh yesterday by William N. Hardy, manager of the Pennsylvania Newspaper Publishers Association.

Mr. Hardy, addressing a meeting of western Pennsylvania newspaper owners, declared the newsprint shortage will continue with no letup for some time to come.

G. Albert Stewart, publisher of the Clearfield Progress and Walter W. Krebs, publisher of the Johnstown Tribune and Democrat, were other speakers on the program.

Entire Town Of Hershey Mourns As Funeral Is Held For Candy King Founder

HERSHEY, Pa., Oct. 16.—(INS.)—Milton S. Hershey, who headed the world's largest chocolate empire, was honored in death today by friends, neighbors and business associates in the model community bearing his name.

He was 88 years old when he succumbed in the Hershey hospital Saturday morning. Physicians said his death was due to "this advanced age."

Funeral services began at 2 p. m. The body will be interred in the Hershey cemetery. Pastors from six local churches will participate in the service.

Eight senior students of the school were pallbearers while P. A. Staples, who succeeded Hershey as head of the chocolate corporation and other enterprises, headed the list of honorary pallbearers.

Blond Irma Grese Takes Witness Stand In Atrocity Trial

LUENBURG, Germany, Oct. 16.—(INS.)—Blond Irma Grese, characterized by her sister as a "very good girl" and branded by the prosecution as the cruelest of all the females accused, took the witness stand today in the "Beast of Belser" atrocity trial.

The fast-faced Irma, one of 45 accused of mass murders at the Belser and Oswiecim camps, mounted the witness stand today which she had been defended a few moments before by 20-year-old Helena Grese.

Meanwhile, Defense Attorney Maj. Cranfield, describing the concentration camp system as "the common form" in Europe, said the defendants "must be judged as the war criminals of a properly constituted legal system."

Producers Give New 'Czar' Eric Johnston Free Reign In Handling Strike

HOLLYWOOD, Oct. 16.—(INS.)—Peace negotiations, after a week and a half of violence and mass picketing, took the spotlight today in the film industry's A. F. of L. jurisdictional strike.

The producers, at a three-hour session yesterday, gave their new "czar," Eric Johnston, a free reign in trying to bring an end to the seven months of strife and he was to turn to the task today in meetings with the various factions involved.

Johnston had a two-fold job on his hands—that of reaching a settlement between the producers and the striking conference of studio unions and of restoring peace between the conference unions and their A. F. of L. rival, the International Alliance of Theatrical Stage Employees.

Situation Promising
The situation looked promising but it was expected that conferences just beginning would continue for days to come.

Production apparently went ahead full swing yesterday despite its having been the first day of a ruling by directors of the Screen Actors Guild that members would not be required to pass through mass picket lines if they felt themselves in any danger of bodily harm.

While the over-all picture was one of peaceful picketing, there was some sporadic fighting, resulting in the arrest of five persons. Among those arrested was Juliette Carr, secretary to Strike Leader Herb Sorrell. She was accused of spitting in the face of a non-striker and later of a policeman.

Mission Couple Will Embark For Colombia

Following several months of unavoidable delay, Rev. and Mrs. Frederick A. Smith and family of this city have received final word that they will fly from New Orleans, Louisiana on October 24 to their mission field in Colombia, South America according to word received in this city.

Mrs. Smith's passport had been held in Washington for some time but has now been received, removing the final barrier to their return to South America.

Following their farewell to this city, Rev. and Mrs. Smith have spent several months in Montevideo, New Jersey, from which place they will go to New Orleans. Mrs. Smith is the daughter of Mr. and Mrs. W. S. Collins, 411 Epworth street.

Convention In Progress Here

The annual missionary convention of the Gospel Tabernacle, 210 Pearson street, which began Sunday in the church, will continue tonight with a service at 7:30 p. m.

Following a short preliminary service, Rev. Theo. Ziemer, representing Thailand, Siam, will portray missionary activity in that country through the medium of stereoscopic slides. Rev. D. C. Kopp of Pungtung will conclude the evening meeting with a Bible message.

Sessions of the convention are being conducted each afternoon this week at 2 p. m. with the exception of Saturday as well as each evening at 7:30. The conference will come to a close on Sunday when the annual pledge offering for foreign missions will be lifted at a platform rally to be conducted Sunday afternoon.

Oil Analyst Speaks To Truck Association

James Cameron Discusses War Time Developments In Lubrication Monday Night

James Cameron, an oil analyst, was the speaker at the monthly dinner meeting of the Lawrence County chapter, Pennsylvania Motor Truck Association Monday night in the Castleton Hotel. Mr. Cameron spoke particularly upon the problems of lubrication in a field in which he has been pre-eminent for a number of years.

The difficult problems of war transportation brought out the genius of American engineers, Mr. Cameron said and as a result, peacetime lubrication has been advanced many years. He discussed the various oils of the country, Pennsylvania crude, Mid-Continent and Pacific and said that each of them had strength and weaknesses which were found in the war testing.

The difficulty of making various burning and expending found in oils at various temperatures were discussed and those Mr. Cameron was devoted by additive mixtures developed by American engineers for the government.

He prophesied that through the additive mixtures, the developments of the war period oil would do a much more efficient job in the future and thus save considerable of the American deposits.

TO HAVE HEARING
WASHINGTON, Oct. 16.—(INS.)—The National Labor Relations Board today granted the Jones and Laughlin Steel company's petition for a hearing on a case involving unionization of foremen in four of the company's plants near Brownsville, Pa.

No date was set for the hearing. An NLRB examiner recently concluded taking testimony from the company and the United Mine Workers union in Pittsburgh on the case. The final decision will be up to the National Board in Washington.

Glass is a substance made by the melting and fusion, at high temperatures, of silica and some form of alkali such as soda, potash and lime to which other ingredients are added according to the desired physical properties of the glass.

State Welfare Leader Heard

Former Principal At East
Brook, Tells Rotary Of
Social Problems

ADDRESS PROVES MOST TIMELY ONE

E. Preston Sharpe, former principal at East Brook high school, who left there to become associated with the correctional school at Morgantown, and later was assistant warden of the Eastern State penitentiary, gave New Castle Rotary club one of their most interesting talks of the year, when he spoke on the social problems confronting the nation.

Referring to the fear that many individuals have over the discovery of controlling atomic energy, he stated that he was not so much afraid of the atomic bomb as he was of the kind of men responsible for the handling of it.

There are too many men in this world who have been brought up with a hate complex, and whose sole aim in life is to get even with someone; men who feel they have been kicked around in life and want to get back at those they feel responsible for the handling of it.

No Substitute For Good Home
There has never been any substitute for a good American home, nor a good American community, where the inhabitants get together to solve the community's problems, he stated, and urged the Rotary club to become interested in the community's social problems.

What we do today will affect the life of tomorrow, Mr. Sharpe pointed out, and urged his audience to set an example. Children, he said, are the basic factors of life, and they should have only the finest examples set for them by their parents and the other people of their community.

There were many boys and girls who came to Morgantown, who never had heard the Lord's prayer recited. Our children will live in the future by the way we live, and we must establish the right standards for them, he asserted.

Discipline is badly needed, but if we want the respect of children, we must respect them, he continued, and pointed out the great respect that the children of China have for their parents.

Uniform Marriage Legislation Sought

WASHINGTON, Oct. 16.—Rep. Homer A. Ramey, R. O., said he has high hopes for his proposed constitutional amendment to permit congress to make uniform marriage and divorce laws for the entire country.

"I expect a house judiciary subcommittee to approve my amendment in the near future," he said in an interview. "And I have been informed the full committee will give a go-ahead to it as soon as the senate says it is willing to consider constitutional amendments again."

At present each state—not congress—makes its own individual marriage and divorce laws and regulations. Ramey called the system an "outrage" and said, "The people will recognize the fact sooner or later."

Defense Council Ends October 31

HARRISBURG, Oct. 16.—(INS)—Gov. Edward Martin today issued a proclamation dissolving the state defense council October 31 after 44 months of service.

The council supervised salvage and other war activities of more than 1,600,000 volunteers. Until shortly after V-J Day when Governor Martin directed the agency to prepare to disband.

The governor directed the council to complete plans for the disposal of more than \$18,000,000 worth of Federal property charged against the state.

No Buyers Yet For Aluminum Plants

Surplus Property Administrator Declares No Competitor Of Alcoa Has As Yet Appeared

WASHINGTON, Oct. 16.—(INS)—Surplus Property Administrator W. Stuart Symington told congress today the government is seeking a way to dispose of its war-born aluminum plants to competitors of the Aluminum Company of America but has found no prospective buyers.

Symington advised several senate committees in a joint hearing that an ALCOA competitor has yet offered to buy a plant.

Under the surplus property law, the government agencies may not make a sale of a plant, which, in the opinion of the attorney general, would promote monopoly, he explained.

Symington said the attorney general believed that ALCOA must be broken up before other interests will want to take over the plants.

The surplus property chief said his agency faces the question of what shall be done with the plants if no competitor of ALCOA offers to run them "except under terms of outright subsidy."

May Arrange Lease
"Frankly, we do not know yet how to meet this problem," Symington said. "The attorney general's report would indicate that leases should be arranged, even if on unfavorable financial terms, to the government."

Symington, in effect, asked congress how far he should go in subsidizing an ALCOA competitor to operate in the place of its alleged aluminum monopoly. He said:

"If congress would authorize or refuse to authorize the Reconstruction Finance Corporation to subsidize new aluminum producers, such action would help by determining how far the government can go in any disposal contracts."

Sen. O'Mahoney (D. Wyo., chairman of the military affairs subcommittee on surplus property, declared in an opening statement that "it would seem that the major part of government owned plants must be sold or leased to ALCOA under conditions of equal opportunity."

City Moves To Acquire Deshon Annex Buildings

Will Communicate With U. S. Surplus Property Department Relative To Buildings

City Council met Monday in the Municipal building and took the first step toward acquiring Deshon Hospital Annex buildings providing the annex is abandoned as has been reported here.

The move consisted of a councilmanic unanimous vote instructing City Property Director Joseph D. Alexander to communicate with the U. S. Surplus Property division relative to the acquisition.

Under the provisions of an existing lease the city requires the government which leased the plot and built the buildings to restore the property to its former condition. Further the city has first offer to purchase at a fair price.

The Third Service command, U. S. Army, reportedly has turned over to Pittsburgh barracks abandoned there in lieu of returning the grounds to their former condition. The local officials are willing to do this to procure the structures.

Instructions to Mr. Alexander developed when Mayor John F. Haven read a letter from Fred Babcock, deputy administrator, real estate or surplus property board.

The letter said surplus property was to be disposed of and hopeful of serving the best interest of the community involved requested the city to voice suggestions and also criticism concerning the disposal.

It next developed Solicitor R. M. White had communicated with Washington department and the annex property and the letter from Mr. Babcock apparently was follow up to his communication.

He had informed the government of the city's rights, stated New Castle always had cooperated with the N.Y.A. Treasury department and the Army but stated the city's legal position in regard to the lease.

The city leased the ground to the N.Y.A. protected the N.Y.A. property after its abandonment until the treasury accepted transfer of the lease to the department and later the army moved in with the hospital annex. The city was not reimbursed for the protection.

Council said it may be necessary for Mr. Alexander to go to Washington to delve into the situation therefore unanimously passed Director James Gibson's motion putting the proposition up to Mr. Alexander.

SCRANTON—City Controller Foster W. Nauman has little hope of having his 1944-45 tax reports printed immediately. He has tried on three occasions to get aids.

U. S. Must Underwrite Scientific Research

Dr. Vannevar Bush, Nation's Scientific Chief, Cites Poor War Draft Policies In Statement

WASHINGTON, Oct. 16.—(INS)—Dr. Vannevar Bush, the nation's scientific chief during World War II, told Congress today it must underwrite scientific research and train men to meet a deficiency in personnel that cannot be filled before 1955.

Bush, director of the Office of Scientific Research and Development, endorsed the Magnuson bill creating a national research foundation, but opposed the companion Kilgore bill for proposing an "autocratic form of organization."

The famed scientist, who had much to do with development of the atomic bomb, stressed the importance of government-furnished scholarships and fellowships.

Limited Number Available. "The one factor which rigidly circumscribes our scientific achievement in this country is the limited number of highly trained scientists available," he said.

America, he said, cannot depend upon the accidents of birth and fortune to supply scientists. He urged manpower policies of World War II.

"In the last few years we have seriously aggravated the situation by our manpower policies. I refer to the fact that we have consistently put in uniform young men who could have more effectively served the nation in our industries and laboratories."

"As a result, today at a time when every ounce of scientific ability is urgently needed for rearmament and future security, we are faced with a very severe deficit of trained young scientists."

"That deficiency even at its present levels, cannot be made up before 1955."

Anyone interested in enlisting or re-enlisting in the regular Army of the United States may call at the recruiting station, room 202, Post Office building, and S-Sgt. James D. Meredith or T-4 Joseph Di Giannamaria will be glad to answer any questions that they might have in regard to the advantages and opportunities that are offered by the best army in the world.

Library Conference Will Meet In City

Librarians of Butler, Beaver, Mercer and Lawrence counties will meet in New Castle on November 15 for the four-county library conference. Miss Alice Sterling, head librarian of the public library, announced today.

Miss Sterling and Mrs. Catherine Charles of the Ellwood City library are planning to attend the conference of the Pennsylvania Library association which meets in the Penn-Harris hotel, Harrisburg, on November 5, 6 and 7. The conference will feature discussion on such subjects as "Rehabilitation and the Library," "The Library in the Streamlined Era," "Evidence of a Renaissance in Reading."

Local Pilot Of B-25 Formerly Reported Missing Since August, 1944, Over Corsica
First Lieut. Jack Hoschar, a pilot of a B-25, of the 12th Air Force, who has been missing in action over Corsica, since August 15, 1944, has been reported as dead by the war department on August 15, 1945, a year later, his family reported today.

First Lieut. Hoschar, husband of Mrs. Josephine Hoschar, of 216 Wallace avenue, has been a member of the Army Air Corps for three years. He entered the service October 12, 1942, and was stationed at Maxwell Field, Ala., receiving his wings and commission as second lieutenant, on October 1, 1943, at Columbus, Miss. In February 1944, he was sent overseas, and in May 1944, he was awarded his commission as first lieutenant at Corsica.

Lieut. Hoschar completed 66 missions and holds the presidential citation, Air Medal, Silver Star with Oak Leaf cluster, the Medal of the Purple Heart and the DFC. On August 15, 1944, he received the DFC for great courage in keeping his crippled plane over the target while the bombs were released somewhere over Avignon, France, during the invasion of Southern France. His plane then crashed to earth and exploded.

Lieut. Hoschar was graduated in the local high school June class 1941, and prior to his enlistment was salesman for Rums wholesale. He was a member of the First Baptist church. The young lieutenant has a daughter, Joan, 14 months old, whom he never saw.

Lieut. Hoschar is the son of Mr. and Mrs. H. V. Hoschar, 216 Wallace avenue. His brother, Pfc. Glenn Hoschar, is stationed at Ft. McClelland, Ala.

Another Parking Meter Is Shown To City Council
Representatives of the Park-O-Meter today demonstrated an automatic meter to city council in city hall, the Miller Manual Multiple coin \$75.00 meter having been demonstrated several days ago. Indications are council will make recommendations as to what meter will be purchased Thursday.

According to the representatives of the Park-O-Meter, their meter may be bought for \$59.50 which include the cost (\$25.00) of a counter. The company will allow a trade-in value of \$6.00, for each Mark Time meter displaced and will deduct \$6.50 if the city installs Park-O-Meters under the meter company's supervision.

Should the city not desire the counter, which it possibly would, the cost would be \$44.50. Should the city decide to make its own installation the city would need to replace present cement posts and purchase pipe.

According to the Park-O-Meter representatives the meter can be timed for any period from 12 minutes to two hours.

The Miller meter also can be timed from 12 minutes to two hours. Should the Miller company make the installation it would cost \$3.00 per meter, according to their representative's statement last Monday.

Chicagoan Wants To Pay Half Million Back Income Tax
CHICAGO, Oct. 16.—(INS)—An unidentified Chicagoan was ready today to ring up a half million dollars on Uncle Sam's income tax register.

That is, of course, if officials will assure there will be no prosecution. Commissioner Joseph D. Numan, Jr., of the Bureau of Internal made the disclosure in Chicago.

He said the offer undoubtedly stemmed from the Revenue Department's campaign launched last April to bring voluntary payment from tax evaders.

The \$500,000 payment would be the largest single voluntary return made in a program which has realized \$50,000,000, Numan said.

Numan said he had been approached in Washington, D. C., by a lawyer who said his Chicago client, "a hypothetical taxpayer", wanted to make a voluntary payment of a half million dollars with official assistance he would not be criminally prosecuted.

Numan said he was "disposed to accept" payment without prosecution.

Under the Internal Revenue Department's program there is no prosecution if errors are disclosed voluntarily.

Two Brothers Receive Discharge, Third In Navy
Lieut. Ellsworth W. Desberry of the U. S. Army Air Corps and Sgt. Frank A. Desberry of the Marines, sons of Mr. and Mrs. Frank A. Desberry of D. D. 2, have been honorably discharged from the service and have arrived in New Castle.

Lieut. Desberry served more than three years in the glider division and participated in the landings in North Africa, Sicily and the Rhine invasion and has been located in France since the end of the war. His company was awarded the Presidential citation.

Sgt. Frank Desberry served in the Marine Air Corps and was in the Pacific theater for more than two years, finishing up his service at Cherry Point, N. C.

Another son, Dewey D. Desberry, is in the Navy and is located in Hawaii.

Convict Prisoner Right In His Cell
PITTSBURGH, Oct. 16.—(INS)—When the prisoner was too sick to appear in court—the court went to the prisoner.

Thomas Harvey, 56, of Pittsburgh, was suffering from a heart ailment in jail and was not able to appear in court on a moral charge.

Judge A. Marshall Thompson with his court aides and witnesses moved into Harvey's cell. There court was held and Harvey was tried and convicted, but Judge Thompson suspended the two-year sentence to allow Harvey to receive treatment at the Veterans hospital.

Husband Nagger In This Case
PITTSBURGH, Oct. 16.—(INS)—Mrs. Jacqueline M. Ludwig, 24, of Pittsburgh, just couldn't stand her husband's constant nagging.

And furthermore, she testified in her suit for divorce granted yesterday by Judge Thomas M. Marshall, he dressed improperly when they had visitors. Sometimes she said he would dress in sports and other times in pajamas. In addition, he would argue with her about money, find fault with her cooking, and even scold the maids away.

Ambassador Winant Is Home For Rest
CONCORD N. H. Oct. 16.—(INS)—John C. Winant, U. S. ambassador to Great Britain, returned home today for rest and seclusion.

"I am very tired," he said, "I am home to get away from things."

Winant said he expected to remain in Concord about six days and then report to President Truman.

In World War I, 20 to 30 per cent of soldiers who contracted pneumonia died.

Urge Friendly, Firm Policy With Russia

WASHINGTON, Oct. 16—(INS)—

A subcommittee of the house foreign affairs committee returned from a 63-day trip through Europe and the middle east to advocate today a "friendly but firm" policy toward Russia.

"We should accord the Russians every courtesy, consideration, freedom and confidence that they accord us—and no more," said Rep. Mundt (R-S.D.) and Bolton (R-Ohio), who spent eight days in gaining entry into the U. S. S. R.

The two members of congress told a news conference that they gained permission to fly their own plane into the Soviet Union only after they wired Moscow from Paris that they were an official arm of the government surveying the lend-lease and UNRRA situation in Europe.

Asks Assistance

"Russia is an applicant for UNRRA assistance," Mundt said, "and we gained admission only after we told them that we would have to detain Russia entirely unless we were permitted to fly in our own plane. After that point we were not bothered any more."

Specifically, the traveling representatives called upon the "big five" powers to decide at once "whether the world is to be divided into two spheres of influence or not."

"Russia is obviously and energetically extending her economic, political and military influence into all the peripheral countries on her border with varying degrees of success," they said in a statement.

They reported that United States military missions in the Balkans are serving largely as "reporters without newspapers" and frequently see orders issued in the name of the allied control commission only after they have been promulgated in the public press.

Summing up their views on Russia, the two congressmen declared that the United States can have peace with Russia and work with that country provided:

1. "Neither country engages in expansionist policies not authorized by the other, and
2. "Neither country treats the other in a manner which would prove unacceptable to the same policies reversed and applied to it."

RUBBISH

The proper disposal of rubbish is a problem for every city. City dumps are provided which are for all rubbish without charge. There are several of these dumps so that they may be convenient for all parts of town.

1. would help to keep our city spick and span if all rubbish were taken to the dump for disposal.

The dumping of rubbish in vacant lots and along streets and alleys does not help to keep the city clean.

Every citizen should help by doing all he can to prevent rubbish being put anywhere except on the dump.

State Guard To Be Maintained At Complete Strength

HARRISBURG, Oct. 16—(INS)—

The need for maintaining the Pennsylvania Guard at "full strength" during peacetime was emphasized today by Gov. Edward Martin.

"Never in the history of the Commonwealth has there been such necessity for a strong internal security force, immediately ready for any contingency," the chief executive stated.

In the inevitable period of mobilization that follows after victorious war, Pennsylvania has a big job to do in reconverting to peacetime activity, and our citizens are depending on the officers and men of the guard to keep the Commonwealth fully protected and self-sufficient," the governor declared.

Martin said discharged veterans were needed to augment the ranks because 28th division was not expected to be returned to National Guard status before 1947.

"In the meantime, the Pennsylvania Guard must continue to function as efficiently as it has during the past four years," he said.

The Pennsylvania Guard is composed of 4000 troops. The unit contains five regiments, a quartermaster company, engineer battalion and quadron of cavalry.

BAPTIST MEETING

SCRANTON, Pa., Oct. 16—(INS)—

Neshannock Post No. 315 Institutes Ladies' Auxiliary With Program

Institution of a new Veterans of Foreign Wars auxiliary to Neshannock Post No. 315 was carried out at a formal organization meeting held Sunday in the post rooms, East Washington street.

An impressive organization program was carried out. Opened by Post Commander James A. Bell, who presided over the meeting, Mrs. Bell, department senior vice president, presided over the organization of the auxiliary.

Election of officers was carried out and those elected were installed by Mrs. Thelma Freed, president of District 4.

Officers of the new auxiliary are: President, Mrs. Carrie Shaffer; senior vice president, Mrs. May Christoph; junior vice president, Mrs. Emma Probst; treasurer, Mrs. Florence Hoover; chaplain, Mrs. Rebecca Strong; conductor, Mrs. Isabel McKee; guard, Mrs. Alice Cleaver; trustees, Mrs. Katherine Ayers, Mrs. Rilla Rishel, and Mrs. Harriet Black.

Gifts to Auxiliary

George D. Christoph, commander of Post No. 315, spoke a message of greeting and presented five beautiful silk flares, all gifts from post members. Mr. and Mrs. Christoph for themselves and their three sons in service presented the auxiliary with a white memorial Bible. A novel was the organization gift to the auxiliary from Commander and Mrs. James A. Bell.

Those who spoke briefly included District Commander Frank Sargent, Mrs. Fred, Past Council Commander John Stamer, Past Commanders Bell and George E. Hunt, Mrs. Elizabeth Miller of Ellwood, for the tri-county council, Past Council President Tempa Stickle, Mrs. Daisy Harddock and Mrs. Nettie Donaldson, both of Ellwood, and Mrs. Cecil White of Sharon.

Words of Greeting

Mrs. Ethel Bell, past president of Post 322 auxiliary, and Mrs. Clair Hunt, for Post 322 auxiliary, spoke words of greeting as did Mrs. Lillian Swartz, president of the Greenville V.F.W. auxiliary, and Mrs. Mary Kelly, president of the Butler V.F.W. auxiliary.

Department officers who spoke of V.F.W. work in hospitals included Mrs. Loretta Kearney, of Butler, department hospital chairman, Mrs. Lillian Davis, Deshon annex chairman, and Mrs. Beatrice Dewhurst, Red Cross chairman.

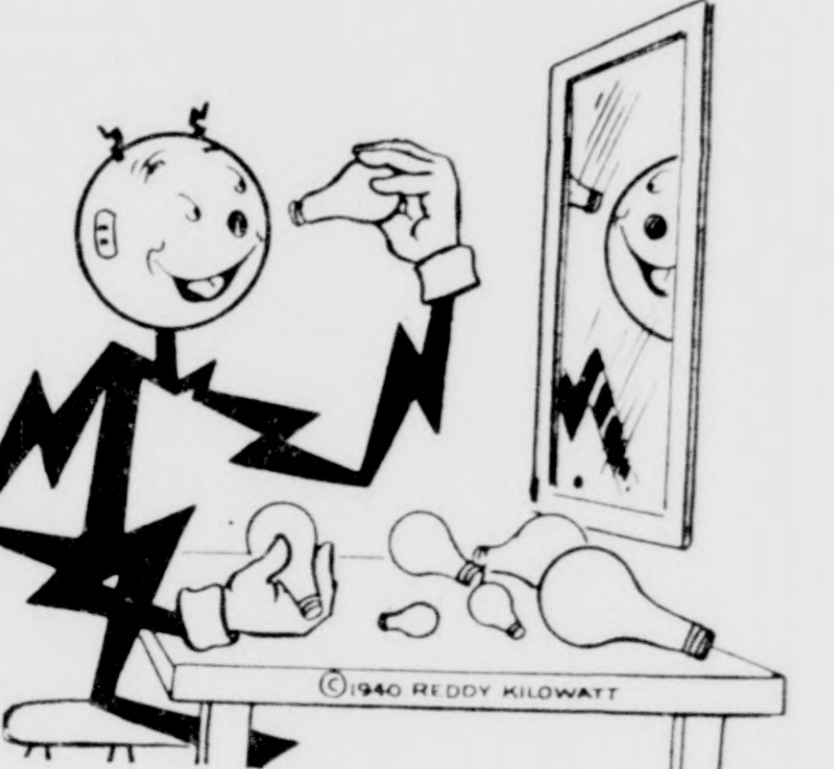

Silent tribute to the memory of Past Commander Earl Cummins was led by Mrs. Woods.

Pep singing was also a feature of the program with music by Mrs. Beatrice McNicholas.

At the close a social period was enjoyed with refreshments served by Albert Shoen and committee.

REDDY KNOWS BETTER!

But he wants to dramatize
So presents a demonstration
Of things that injure eyes
You can see the pained expression
On his usually smiling face
The bulb is small and glaring
And located out of place
Now he can't enjoy his reading
And his head begins to ache
So he'll tell you the right way
And precautions you should take

THIS IS HIS ADVICE

- Use bulbs large enough for easy seeing. At least 100 watts for reading.
- Avoid glare. Every bulb should be shaded. Lamps should be located so light rays fall on the printing.
- Keep bulbs and shades clean.

Trains Don't Just Go Wandering Around

Trains don't just take off "on their own" and make their way willy-nilly from one town to another. No, indeed! The location of every train that moves over Baltimore & Ohio's 11,000 miles of track is known exactly. Each train can be contacted and given orders in a matter of minutes. The men whose special job it is to keep "tab" on the many passenger and freight trains moving over B&O's far-flung system are the train dispatchers. Skilled by long experience and aided by modern mechanical devices, they route and time B&O train movements with unerring accuracy. Like all B&O men and women, they can be counted on to bring you the things you like in modern train service... speed, safety and "on-time" dependability.

World Fellowship Dinner At Y.W.C.A. To Be November 8

Annual Event Has History Of 50 Years; Committee Plans Double Program At Y.W.C.A.

Pittsburgh representatives of the various organizations connected with the Y.W.C.A. met with Mrs. J. Glenn Berry, chairman of the world fellowship committee, Monday evening in the Y.W. to plan the observation of World Fellowship Day on November 8, an annual event in the Y.W.C.A. for over 50 years.

Mrs. Berry discussed the theme of the celebration, "Let Us Rise Up and Build," and spoke on the seriousness of the program this year. As the offering this fall will be for the Y.W.C.A. organizations in China and Manila, the tables will be decorated with the Chinese and Filipino motifs predominating.

This year's program and dinner will be in the Y.W.C.A. instead of in the Cathedral, according to a vote taken by the committee. Girl Reserves will have a special program in one room, under the direction of Girl Reserve program director, Miss Marion Ochampaugh, while the adult program and dinner will be held in another room.

The program for the adults will be under the direction of Mrs. J. F. Berry, Mrs. William Lestas and Mrs. Ruth Engle Hill.

Stettinius Coming Home For Treatment

LOAN, Oct. 16.—(INS.)—Edward R. Stettinius, chairman of the United Nations executive committee, left London today to return to the United States for medical treatment.

Stettinius, former secretary of state, left on the advice of doctors for treatment of a gallstone condition which was diagnosed yesterday after X-ray examination. The treatment possibly may require some time it was said.

Cooked A Fine Dinner; Then Threw It To Dog

One lady recently stated that she used to throw her own dinner to the dog most of the time. It made her sick just to look at anything to eat. She was swollen with gas, full of blood and headaches, felt worn out and was badly constipated. Finally she got ERB-HELP and says she now eats everything in sight and digests it perfectly. Bowls are regular and normal. She is enjoying life once more and feels like "some other woman" since taking this New Compound.

Youthful Slayer Changes His Story

Pittsburgh Student Gives New Angle To Shooting Of Merchant In Park

PITTSBURGH, Oct. 16.—(INS.)—William Blader, 18-year-old disciple of Nietzsche's philosophy today admitted to police that he shot and fatally wounded dapper Frank M. Amberson after an early morning tryst.

The bespectacled, University of Pittsburgh student told Police Superintendent Harvey Scott that he had arranged to meet Amberson at a fountain in Schenley Park, where the Pittsburgh merchant was to have committed an act of perversion.

Blader changed his earlier story that the shooting was accidental and told police that he bought the revolver because "people annoyed me sexually" and because they threatened me over my Nietzschean philosophy.

After he met Amberson, Blader told police, they walked up a dimly lit, winding sidewalk behind the Carnegie Music Hall.

"Amberson asked me to submit to an act of degeneracy," Blader said.

"I pushed him and his back was toward me. That was the act of degeneracy on my part. Then I fired four shots, but missed three. Amberson was frightened. He began to run, the freshman student told police.

Blader disclosed, police said, that he met Amberson twice before and each time Amberson vainly tried to molest him.

His revised confession was made, police reported, shortly before his widowed mother, Mrs. Rita Blader of Brooklyn came to see him.

Miners Claiming Jobless Benefits

HARRISBURG, Oct. 16.—(INS.)—Representatives of the United Mine Workers of America were slated to meet with state unemployment compensation officials today at Harrisburg to discuss the claims of strike-idle bituminous miners for jobless benefits.

Under an agreement between the union and the commonwealth, disposition of the claims of 12 soft coal miners will serve as a guide in other cases. The U. S. employment service for Pennsylvania has ruled that the dozen miners were idle as a result of an industrial dispute and therefore were ineligible for compensation.

The appeals were filed with the USES at Uniontown, Washington, Kittanning and New Kensington.

M. L. Jacobs, secretary of the board of review, said the appeals would be referred to unemployment compensation referees.

The 12 miners claimed they were idle, he reported, because mine supervisors failed to report for duty and that the supervisors employed union-affiliated with the UMWA had established picket lines around the pits.

Prisoner Faces Charge Of Murder

Eugene McQuiston, 19, Uniontown, Admits Killing Fellow Inmate At Norristown

NORRISTOWN, Pa. Oct. 16.—(INS.)—A 19-year-old Uniontown boy, sentenced to Graterford prison for a Reading robbery in 1943, today faced a magistrate's hearing on charges connected with the fatal stabbing of a fellow inmate.

The youth, Eugene D. McQuiston, told Acting Warden Cornelius Burke that he jammed an eight-inch razor blade into the back of Stanley F. Cohowies, 21, of Old Forge, because the victim had hazed and taunted McQuiston during their incarceration.

McQuiston was said to have confessed, after an hour of intense questioning, that he got behind Cohowies when the breakfast line was formed yesterday morning, got into an argument with the victim and during the ensuing fight stabbed him in the back.

"Let him have it," Warden Burke and McQuiston told him.

McQuiston told Burke that he got the razor blade from another inmate the night before during dinner, but he refused to name the man.

Although prison guards were standing only 100 feet from the scene of the crime, none saw it and McQuiston found temporary refuge in the breakfast line.

When he was questioned later, however, prison officials said, he appeared nervous and finally confessed. He was under a two and one-half year term for automobile theft.

Cohowies, sentenced last May 26 in Philadelphia, was serving a five to ten year term for burglary.

HUNTER IS WOUNDED

Hughes crawled a mile to a nearby farm for aid.

Avery Brundage Completes Olympic Survey In England, Sweden, And Finland

ENGLAND NEEDS SHOT IN ARM

By RALPH CANNON

CHICAGO, Oct. 16.—(INS).—A survey of the Olympic situation in England, Sweden, and Finland, which was made today by Avery Brundage, president of the United States Olympic committee, revealed that the Olympic committee in England is the only one sure way to save the modern world.

A veteran of the decathlon in the 1912 games at Stockholm, where he was a team-mate of Jim Thorpe and Gen. Patton, Brundage has made his hobby the promotion of amateur athletics.

Completes Survey

Just back from a trip to England, Finland and Sweden on which he studied the conditions, he presents the impression that England, is pretty fit.

Poorly, hunger, no implements to start over with—that is the stark aftermath of war. Nowhere is there an instinct or hope for the world and importance of sports. Out of this world has gone the hope that these youthful games could become a first step toward a brotherhood of men.

London Probable Site
Brundage thinks that the '48 Olympic games will be held in London. The Wimbledon stadium may be enlarged, and England hopes the games will bring her some tourist money.

What's the matter with organizing the games to Chicago? I asked Avery. "There's money here," he replied.

"The war-ravaged countries couldn't afford to send their teams. Besides, Chicago has never shown much enthusiasm for the games."

Speaking in pre-war terms, the Olympic games were a very valuable commodity. Los Angeles estimated that the 32 games brought \$50,000,000 into the community. Detroit figures that the games would bring \$75,000,000 to a centrally located city. Half a dozen American cities have made bids for the next games, but since the great dream of fostering peace by this method has flopped so abysmally, a lot of the voltage has gone out of the show.

No Japs and Germans
"How about the Japs and Germans competing?" I asked Brundage. He explained:

"I doubt it will. From the point of view of the pure idealism of the thing, they should be let in. But the clamor such a move would arouse would hurt the games more than the idealism is worth."

That you see, is the great thing that is gone, that we have lost with the failure of this dream of peace—the idealism. That is the reason for the present lack of excitement for a \$75,000,000 show.

The present status of the Olympic games is only a speck of dust in the tragedy that reaches out into infinity in scope. We have lost not only the potentialities of the millions of men, the property and records. But the finest things of all—dreams, ideals, hope. . . That is the greatest loss of all.

Baseball Clubs To Trek South Again In Spring

CHICAGO, Oct. 16.—(INS).—A sure sign that pre-war style baseball is on its way back came today in announced plans of major league teams to trek to Florida and California for the spring training seasons in 1946.

Return of the clubs to the two states will end the three-year wartime modern training.

The Chicago Cubs, National league pennant winners, will train at Catalina Island, the Pittsburgh Pirates at San Bernardino, and the St. Louis Browns at Anaheim, Calif. The Chicago White Sox will train in California but have not yet announced selection of the site.

Junior Elevens Battle Saturday

Franklin and Washington Prepare For Annual Game Saturday Night At Stadium

Intensive practice sessions are in order this week at Ben Franklin and George Washington Junior High fields as the youngsters prepare for their annual battle Saturday night at the stadium. The kickoff at 8 o'clock will find the stands well filled with followers of both schools.

Washington High with a powerhouse team last year won the city junior high title, but face a tough evening the week in repeating over the big Franklin eleven. Franklin High is undefeated in three previous starts, while Washington has yet to start the win column, their best effort being a 0-6 tie with Sharon, which Franklin upset 20 to 6.

Franklin Heavy Favorites

Franklin's most recent win over the powerful Ellwood City Junior High team makes them prohibitive favorites to win Saturday. Ellwood dubbed Washington in the opener 26 to 6. Franklin defeated Farrell 26 to 6, while Washington's best effort last week was to tie Farrell 6-6.

Head Coach Austin Comedian of Franklin and his capable assistant George Binder have their work cut out this week to try and overcome the over-confidence "bugaboo." Naturally, the Franklin lads think that this will be an easy win over Washington and that is bad for any team. Coach Art Alexander at Washington and his fine assistant Tom Smathers haven't much to say about the game Saturday except this: "We'll be out there trying, with a green and inexperienced eleven against a much more experienced foe."

Football Costly, Howard Will Quit

Small-time football doesn't pay its way and so Howard College of Birmingham, one of the small times, will give it up after this season.

The navy won't supply any more players for one thing, and trying to offer inducements to lure good men away from the bigger schools is another.

But the main reason is that the fans in Birmingham don't attend the games. Howard has to go away from home and seldom brings back more than \$3,000. Football costs around \$40,000 a year at Howard and the school can't stand it.

Michigan State had several participants with Pennsylvania addresses on hand in last Saturday's game in Pitt stadium; the reason, Warren Huey, flashy right end of the Spartans, was an outstanding athlete at Punxsutawney High.

Shenango-Union Prep For Battle

Annual Shenango-Union Grid Tussle At Union Field Friday At 2:30 P. M.

Football fans will see a real battle this coming Friday afternoon at Union High field, when the so-called "wildcat" battle Shenango High "Wildcats" in a county title tussle. The game will start at 2:30 o'clock.

Shenango High still remembers what Ben Korab did last year in the driving moments at Shenango to give Union a 12 to 7 upset victory over a highly favored Shenango "Wildcat" eleven. The East New Castle boys are out for revenge this year, with a powerhouse team Union faces a rough afternoon from Chuck Tanner and company.

Could Be Upset
Shenango was a prohibitive favorite last year and a big upset occurred, and it could happen again this year, but Coach Edie Nahas is inclined to believe Shenango has a big edge this year. Shenango cannot afford to hold the victoryless "Scotties" to lightly.

Coach Pat Patterson will have Union at the top of its game for the big tie.

In the 7 to 6 and a loss to Shenango erases them from at least trying for the county title. But Coach Edie Nahas is inclined to believe Shenango has a big edge this year. Shenango cannot afford to hold the victoryless "Scotties" to lightly.

Indications point to a banner crowd at Union for the battle Friday. Faculty Manager Clayton Holmeister at Union is making plans for handling the biggest crowd of the year.

Commission Fixes Same Fishing Dates

HARRISBURG, Oct. 16.—Sportsmen will fish under the same rules and regulations next year as those this year. Fish Commissioner C. A. French said.

The board of fisheries also fixed these seasons and limits for 1946: Brook trout and rainbow trout, April 15 to July 31; week limit, ten for combined species of not less than six inches in size.

Small and large mouth bass, July 1 to Nov. 30; limit of six for combined species not less than nine inches in size.

Pike perch and pickerel, July 1 to Nov. 30; limit, six not less than 12 inches in size.

Maskelline western and northern pike, July 1 to Nov. 30; limit, two not less than 24 inches in size.

Evenly also reminded fishermen that a new 1945 law now limits motor boats to five horsepower when operating in inland waters of the commonwealth 180 feet or less in width.

Mark Benet, who fractured his left leg while playing for the Pittsburgh Hornets in the American Hockey league last winter, has given up his playing career. He will coach the Washington Lions of the Eastern Amateur league this year.

Johnny Wood, former Pitt halfback, has joined the University of Connecticut coaching staff. He has been backfield coach at Western and received a leave of absence to assume his new post.

Fair Or Foul

BY LAWTON CARVER

International News Service Sports Editor

NEW YORK, Oct. 16.—Golf's greatest show, the national open championship, which will come back to the fairways as part of the sports boom in 1946, probably will be played at Cleveland, according to mid-west golf operators encountered during the world series.

The exact site and date will be announced this week.

But all this is of little import at the moment to Craig Wood, the big boned national open duration champion.

He is in his back at New York's Orthopedic hospital, with weight on his left leg to keep it pulled in place and with another operation advised to straighten out the spinal ailment that has persisted since an automobile accident 15 years ago.

He has been laid up slightly more than two weeks and will be in the hospital for another week or so, then home again, then rest and maybe he will be able to defend his title he won at Fort Worth in 1941.

He isn't so sure about that. It all depends upon how his body responds to treatment in the next few months.

He thinks he will be able to make it all right in a corset-like contraption, such as he wore at Fort Worth when he wrote one of the most memorable of all chapters in the lore of sports. He was a 100 to 1 shot when he won that one.

He wasn't given a chance against the young crop of professionals. Among other things, he had been forced out of the New York Goodall round robin by his back trouble and had about decided not to play in the open at all. He went on down to Fort Worth as a sort of afterthought.

Wore Special Brace

Then, of course, as everybody knows by this time, he scored the outstanding victory of his golfing career.

He wore a big contraption to keep his back from flying out of kilter. Later on he was about to join the marines when it was found he needed an operation, discs were removed or phenolized around to give him relief until a couple of weeks.

CAMPFIRE CORNER

SQUIRREL HUNTING

A crisp, frosty fall morning, with the sun blazing up over a clear horizon. Shocks of grain-brown corn in an adjacent field. Crimson tan and yellow leaves lingering sparsely on hardwoods and shrubs. The crow of a distant farmyard rooster answering the cackle of a cock pheasant down at the edge of the woods. The fall of an acorn or walnut. A rustle of twigs, a scurry, a branch high up in a nearby oak and the sudden shrill bark of a bushytail.

If you're on the alert and armed with a shotgun you'll probably get that fellow without much trouble. From your vantage point on the leaves you've piled against a stump you take quick aim, fire, and to earth tumbles your gray squirrel.

He is more likely to be a gray than a fox at this time of day. For squirrels having a rather late disposition that keeps them in their den trees until later in the morning. You shove your game into the back pocket of your hunting jacket and move on to another vantage point, probably wise in your assumption that the boom of your shotgun has scared all the squirrels in the vicinity to lie dormant for a time.

More Difficult
If you're armed with a 22 favorite rifle of squirrel hunters, bagging your favorite game may not be quite so simple. You must wait until the squirrel hesitates in one place for a moment and be ready to fire at the split-second instant. Perhaps you'll have to quit your reveries by the stump and do a little stalking at the risk of being spotted by Bushy's sharp eyes.

But sooner or later you'll probably get a bead on the squirrel's head and down he'll come, mess unspooled by air shot. The crack of a 22 isn't as ominous as the boom of a 12-gauge, or even the chatter bark of a 410, so the bushytail's pads may be out and about within a few moments, if you remain quiet in the meantime.

Titans Prepare To Resume Football

NEW WILMINGTON, Oct. 16.—A tentative schedule is already being set up for Westminister college's return to the gridiron next fall after a lapse of four years.

Within the span of one week Coach Grover C. Washburn reports that five district colleges have requested games. Included in the list of former competitors interested in renewing football rivalry are Gettysburg, Bethany, Carnegie Tech, Allegheny, and Grove City.

After three previous years, Louis and Curren charged in several matches before they entered the army to hold in abeyance an endeavor.

Both were released recently, Lewis as a sergeant and Curren as a corporal.

Louis attended yesterday's gathering for announcement of his signing and said he plans a visit to California for a couple of months of loafing, then may go on a brief tour of army camps in the United States here or abroad.

Beginning next March he will devote himself exclusively to training in his first defense.

Curren is expected in New York Wednesday for a conference with Promoter Jacobs.

Students At Forty Fort High Riot As Pittston Wins Game 13 To 12

WILKES-BARRE, Pa., Oct. 16.—(INS).—Approximately two hundred students of the Forty Fort High school staged a strike Monday to protest the football decision which precipitated a riot Friday night and gave Pittston the game 13-12.

Frank Walp, supervising principal of Forty Fort, said only 325 pupils returned to classrooms Monday.

When school authorities indicated they intended to apologize for the riot, the strikers served notice not to include the student body in any letter of explanation to the officials.

State police were forced to break up the scuffling Friday night and to escort the officials from Forty Fort.

Simultaneously, the strikers demanded a meeting with members of the Athletic council to discuss supervision of athletic funds, an new and coach and passes for football players.

Louis Signs For 1946 Title Fight

Mike Jacobs Signs Louis For Championship Next June, Conn Likely Opponent

NEW YORK, Oct. 16.—(INS).—Promoter Mike Jacobs announced Monday that he has signed heavyweight champion Louis for a title fight next June with contender Billy Conn or any other leading boxer he may choose.

The Jacobs announcement said the exact date and site of the match will be announced at least 40 days prior to the engagement.

Iron-Clad Agreement

Louis, under the agreement, will not engage in any exhibition or matches prior to the title fight as long as the New York promoter's written contract.

The championship fight, which may gross over \$1,000,000, will be the first official one in the heavyweight division since the pre-war fight between Louis and Conn, in which the Detroit slugger retained his crown only by a 13th round knockout.

Several Sites Mentioned
New York's Yankee Stadium is reported to have the inside track, but there has been talk of the bout being held at Philadelphia's Municipal Stadium or at Chicago's Soldier Field.

Jack Dempsey and Gene Tunney, two of the greatest heavyweights who ever fought, were both defeated by Louis in 1936 when Dempsey and the title holder 120-137 split decision. A year later at Soldier Field they fought the all-time biggest gate, \$2,666,666 paid in by 104,943 fans.

Whether the current champion defends his crown next June is likely to be an experts' agreed, boxing season's anticipation. A gate of \$1,000,000 is expected.

In his agreement with Louis, Jacobs has stipulated that the champion must not engage in any exhibitions or matches prior to the title fight, without the promoter's written consent.

North Catholic Strong Eleven

New Castle High In For Tough Evening Friday At Stadium, Is Indicated

A glance at the record of the North Catholic High "Trojans" football team so far this year, reveals that New Castle High had better be prepared Friday night for a tough evening.

The Trojans, coached by John "Bull" Karris, former Tech football star in the 1923-29 period will bring a team here that will outweigh New Castle about 10 to 12 pounds per man. The fullback Ray Jansel tips the scales at 220 and is a powerhouse at hitting a line as revealed by his work in previous games in which North Catholic has defeated such big teams as Allegheny, West Hill and New Kensington in Class AA. The only loss by North Catholic this year was to McKeesport 12-6.

Have Big Backfield
The North Catholic team has a whole of a backfield led by Arnold Anichini at quarter, Ray Kropes at left-half, Jim Forester at right-half and big Jansel at fullback. The backfield will average close to 100 pounds.

Average nearly 180 pounds. The teams have found it tough to score through the Trojans line and have taken to the air mostly to gain ground and score. This will be the biggest team that New Castle has faced yet, even bigger than Allegheny.

Coach Pat Bredenbaugh realizing what his high schoolers, Pennells and Flora face this week will have a well developed forward pass attack to throw at the Trojans. New Castle has not opened up with much of a passing attack this year relying mostly on the speedy halfback to score, but faced by a rather big club this week, the picture may change.

Pitt-Notre Dame Tickets Scarce

PITTSBURGH, Oct. 16.—(INS).—From the look of things the annual Pitt-Notre Dame game is going to be a sellout.

Despite the sport hauled the Panthers last week by Michigan State, tickets for Saturday's game were harder to find today than the usual football ticket.

An injury to fullback Jim Foley, caused Coach Clark Shannahan to shift right halfback Harold Westman to the fullback post in the Panther lineup. Westman started at fullback at the beginning of the season but was later shifted to halfback.

Total scrimmage yards were scheduled for today and tomorrow, concentrating on a defense against the powerful attack of the Trojans.

The clash met last week with the Lawrence County Sportsman association at the VFW Hall were planned for a pistol and rifle range at the new stadium.

Herb Kaut, coach of the Boston Braves professional ball team, was in Washington and Jefferson in last Monday's game. It was announced at W & J that Kaut was scheduled to be the championship champion in 1919 when Kaut was a star. While at W & J Kaut took up football and the school dropped baseball as an intercollegiate sport.

Quarterback Carmen Carmine followed to become the second freshman to Quarter history to captain a Penn football team when he led the team to their third victory in a row by defeating North Carolina last Saturday.

John Stover, college director at Little College, proposed a Little Penn athletic conference by Tipton, Westminister, Allegheny and Grove City colleges. Next season sports are resumed next year.

SAM DE LILLO, pfc, in the army and yet in the ETO, has been awarded the Purple Heart, according to word received here. He is the son of Mr. and Mrs. Joseph De Lillo, 408 East Division Street.

Sam, a former star football star for St. Vitus which won the Y Church League flag three successive times, was driving several wounded men in an ambulance when four German paratroopers ordered him to stop. Instead, Sam made a run for it and the Germans threw hand grenades, killing the wounded, destroying the ambulance and Sam was thrown through the windshield and laid three weeks before he was picked up by another ambulance of the company to which he was attached.

American Rubber Band Duckpin Bowling Association has been formed at Pittsburgh, and is an affiliate of the National Duckpin Congress. Sebastian Iabella, former resident, now of Pittsburgh, is secretary of the new organization.

Frankie Moran, ex-serviceman who recovered from wounds sustained at St. Lo, then was discharged, is working out at the Jefferson A. C. in preparation for some amateur bouts.

Probably the first big news to be expected in the winter baseball meetings is a manager for the Braves. Boston's present coach is Les Bismore, who took over when Manager Bob Coleman resigned in mid-season.

George Munger, class of 1933, coaches Penn which has a whole new team. Group Captain Douglas Bader shot a 91 in a PAF golfing tournament at Moor Park, near London. He is a legless war ace.

Years ago prosperity was just around the corner. Nowadays, the reconstruction "It looks like it's all over" said Miss Wine Cup to her companion after they noticed a wife give the death ray to a flirt in a local drugstore.

George Barr, one of the star defensemen in the American Soccer League, is back in the line, playing with the Brooklyn club. Barr was captain of the Brooklyn when he served his army three years ago and has been returned to civilian status. He played with several Australian and New Guinea eleven while in the South Pacific.

The supervision referred to by Dr. Calkins is that of the local extension agent. He is, as he termed it, the cutting edge management. It requires special and practical skills. It offers advancement for the able.

Relatively New

This sort of specialized supervision is relatively new in America. Dr. Calkins conducted the economy of the patch which was one of agriculture to a peasant economy which is industrialized. He is more interdependent than before. It is specialized, but before it is specialized, it is a peasant.

The people as income receivers as buyers, rise on the willingness of every person to do his children job he has elected. The will not be reprieved. The will not be denied.

SEN. EISENHOWER DENIES CHARGES

EISENHOWER DENIES CHARGE
WASHINGTON Oct. 16—(INS)— Dwight D. Eisenhower, United States President, today denied charges that Jewish political prisoners in Germany now being held under conditions similar to those imposed by the Nazis. Eisenhower's lengthy and strenuous reply was made public by the White House. The report that Truman was the result of charges made by Earl G. Harrison, U. S. representative in the international government committee,

forms of transportation protection required activity created in the end to make atomic fuel, but the first use will probably be on land.

Traffic Deaths Increase Since Rationing Ends

August Has 137 Deaths; Lawrence
County Has Two Fewer Deaths
Than January-August, 1944

Counting with the end of gas rationing in an upswing in the number of traffic fatalities in the state in the month of August, 1945, 137 persons lost their lives according to information from the Bureau of Highway Safety.

This number of deaths is 51 more than the number of persons killed in traffic accidents in August, 1944, and the total shows an increase in both the rural and the urban sections of the state.

August Raises Total.
Although the total for the rest of the year was much lower than the total for 1944, the increase in August brings the 1945 up to only seven less than the total for the same period last year, the state report shows. Multi-fatal accidents continue to increase, and up until September, 51 accidents took the lives of 118 persons.

Until September, Lawrence county showed a decrease of two over last year, having only six fatalities as compared with eight in 1944. One of these was in the rural areas and five in urban sections of the county. Five of the six were pedestrians this year, whereas only four were pedestrian fatalities during the same period last year.

Some from Out-of-State.
One hundred and forty vehicles were involved in fatal accidents during August, and of this number 82 were involved in single car accidents, 46 were involved with two or more vehicles, and 12 were out of state cars or a hit and run car, and one was a government vehicle. One of the cars reported in these fatal accidents was a 1923 sedan which failed to yield the right of way and collided with a 1940 vehicle. The next oldest, according to the Highway Bureau, report, was one each of the years 1928, 1929, and 1930.

Of the total number of known year models, 51 cars, of 39.8 percent, were models of the years 1940 and 1941, and the two years of 1936 and 1937 comprise 25 percent of the total known number of vehicle models.

If you have excess of acids in your blood, your 15 miles of kidney tubes may be overworked. To relieve this, tubes are working day and night to help Nature rid your system of excess acids and poisonous waste. When disorder of kidney function permits poisonous matter to circulate in your blood, it may cause nagging headache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Kidneys may need help the same as how-
ever, so ask your druggist for Dean's Pills, a
stimulant diuretic, used successfully by mil-
lions for over 40 years. Dean's give happy
relief and will help the 15 miles of kidney
tubes flush out poisonous waste from your
blood. Get Dean's Pills.

Carnegie Fire Loss Is \$500,000

PITTSBURGH, Oct. 16.—(INS)—State fire officials today were investigating the mysterious explosion that caused damage estimated at \$500,000 in a fire at the Weimer Metal Craft Company in suburban Carnegie.

The blaze destroyed 10 carloads of material used by the Metal Craft Company in the manufacture of \$200,000 worth of government owned tools and equipment used by the Breeze Corporation for the manufacture of B-29 airplane parts.

Carnegie Fire Chief M. P. Schulte said the explosion spread flames through the second and third floors of the three story industrial plant. More than 60 employees of the metal company were at such when the explosion occurred.

Three Pittsburgh fire companies and volunteer firemen from seven suburbs fought the fire four hours and succeeded in preventing it from spreading to an oil warehouse of the Gordon Lubricating Company nearby.

INDEPENDENCE ASKED FOR ITALY

Congressman Makes Plea For 'Out-
right Independence' By With-
drawal Of All Troops

WASHINGTON, Oct. 16.—(INS)—Rep. Marcantonio (AL, N. Y.) asked President Truman Monday to restore "outright independence" to Italy by the withdrawal of all Allied troops from that nation.

The American Labor party representative urged during a visit to the White House that the Big Three—United States, Great Britain, and Russia—give Italy an interim treaty "until the next conference of foreign ministers takes place."

The treaty would provide for the withdrawal of the Allied commission and occupation troops.

Marcantonio said the President appeared "sympathetic" to the proposal.

Needs Much Aid.
The congressman informed the President also that Italy requires one and one-half billion dollars in 1946 for food and reconstruction.

"The Italian wheat crop will be 40 percent of normal," Marcantonio stated, "and I pointed out to the President that would entail their purchasing 230 million dollars worth of wheat to make up the deficiency."

Marcantonio also urged the President to permit Italians in this country to send ten pound packages "everywhere in Italy." At present, he stated, shipments are limited to four-pound packages to Naples, Rome and Sicily.

Marcantonio told the President that the Italian government cannot function adequately now as it is unable to make any decisions on major questions, such as elections, currency and economic problems without the approval of the Allied commission.

"I asked the President to give Italy outright independence," stated Marcantonio.

"I found him sympathetic."

Natural Resources Checkup Planned

HARRISBURG, Oct. 16.—The State Soil Conservation Commission plans to survey activities of all commonwealth governmental agencies in making the most of Pennsylvania's natural resources.

The commission at a meeting late yesterday received preliminary reports from the Department of Highways, Mines, Forestry and Waters and the Fish Commission. Chairman Miles Host, state agriculture secretary, said several counties had expressed interest in the establishment of conservation districts. A law enacted by the last Legislature stipulated that districts could be established by county commissioners at the request of area farmers and landowners.

Relief Payments Total \$5,020,000

PHILADELPHIA, Oct. 16.—September payments to Pennsylvania recipients of State assistance totaled \$5,020,000. It was announced at Harrisburg yesterday by Robert P. Wray, Acting Secretary of Public Assistance.

Blind pension expenditures amounting to \$505,000, represented a monthly increase of approximately \$120,000 as a result of the new legislative act increasing monthly pensions to blind persons from \$30 to \$40.

In Philadelphia, 49,218 persons were receiving some form of public assistance during the period ending Oct. 6. The total expenditures by the Department of Public Assistance to persons living in Philadelphia during September were \$1,267,212.94.

JAP POPULATION PUT AT 77,997,042

TOKYO, Oct. 16.—The home ministry, making the first Japanese census report in more than five years, has estimated the population at 77,997,042, with men outnumbering women by about 25,000. It was disclosed today. A formal census report will be made in November.

The education ministry announced the lifting of the ban on religious education in Japanese mission schools. The ban has been in effect for more than 50 years.

SCRANTON—Relationship apparently meant nothing to Manuel Solomon when \$122,411 is concerned. He claimed the sum was due him for his services as a salesman so he sued his brother Max for the amount.

Find Woman Left Savings Of \$60,000

PITTSBURGH, Oct. 16.—(INS)—An Erie woman, who lived simply and worked as a caterer, accumulated a life savings totaling over \$60,000, it was disclosed today by the administrator of her estate.

The woman, Miss Caroline Scander, died last week leaving \$30,000 in a safe deposit box together with a note telling where she had

hidden an additional \$30,000 in the attic of her home.

A will found in the deposit box named a friend, Anthony L. Strobel, as administrator.

GIRL SCOUTS

Troop 16 Recreation Night

Sponsoring the first of a series of "recreation night" for 10-to-14 year old girls in their neighborhood, Girl Scouts of troop 16 were host-

esses to a number of guests in the social rooms of the Mahoningtown Methodist church Friday evening.

The troop has felt that there was a need for a recreation center of project for girls of their age in their own neighborhood, and planned this series of evenings as a result. About 19 were present for the first event.

Folk games and folk dancing were supervised by the girls of the troop. The next "recreation night" will be next Friday evening at the same place.
